

Model 207A eSports Console Example Screen Images

STcontroller: Example Page

The screenshot shows the ST-M207A-DEMO software interface. The window title is "ST-M207A-DEMO" and it has a standard menu bar with "File", "Device", and "Help". There are status icons in the top left and a "Status" indicator with a red dot in the top right.

The interface is divided into several sections:

- Headset Mic Input:** Includes an "Electret Power" checkbox (unchecked), a "Gain" section with radio buttons for 48 dB, 42 dB, 36 dB (selected), 30 dB, and 24 dB.
- Headset/Phones Outputs:** A large section with multiple settings:
 - Game Audio Source:** Stereo Line In
 - Game Audio Destination:** Headset
 - Comms Source:** Dante 1/2
 - Comms Destination:** Headset
 - Sidetone Source:** Headset Mic
 - Sidetone Destination:** Headset
 - Sidetone:** Main Active
 - Noise Source:** White (Internally Generated)
 - Noise Destination:** None
 - Noise Level:** Medium
- Stereo Line Input:** Includes a "Gain" dropdown menu set to 0 dB.
- Button Operation:** Includes "Main" (Push to Mute) and "Talkback" (Push to Talk) dropdown menus.
- System:** Includes "Operating Mode" (On-Air), "Button Backlight Intensity" (High), "Underglow Color" (Blue), and "Underglow Intensity" (High) dropdown menus.
